Press Note

Dr. Deepak Shikarpur, a dedicated I. T. evangelist conducted Faculty Development Programme in Suryadatta Institute, Bavdhan Campus, Pune on Saturday, 12th April, 2014 on the topic of '***Use of I. T. and Technology in Management Education***'.

He emphasized personal counseling of each student and convinced the need of the competitive hour to prepare ***Personality Horoscope*** of each student. He highlighted practical significance of utility of several aids to teaching like Power Point Presentation, e-journals, Case Studies, Video Games and Films, to mention a few. He persuaded that if proper technology is applied by both the elements in the process of learning viz the faculty and the student, teaching would not only turn very easy but it would also be highly interesting and curiosity arousing. This would, in turn, benefit the institutions also.

Overall the Faculty Development Programme was highly absorbing and all the 20 faculties who attended the programme could learn good points for improvement in Lecture delivery.

Dr. Deepak Shikarpur, a dedicated I. T. evangelist, while addressing the faculty members of Suryadatta Group of Institutes on Faculty Development Programme held at Suryadatta Institute, Bavdhan Campus, Pune
