

- **Suryadatta College of Management Information Research & Technology, SCMIRT organized State Level Seminar in association with Savitribai Phule Pune University on “Big Data Computing for Manufacturing Industry”**

Suryadatta Group of Institutes organizes National Level & State Level Seminars to enhance the level and quality of knowledge. The students gain while studying the theory & concept of various subjects in the Institute. The speakers, participating in such seminars, are of International repute; having a huge treasure of experience & subject expertise. Brain storming with such renowned personalities is a life time opportunity for the students and they are eager to exploit it.

Keeping this tradition of Suryadatta Group of Institutes in mind, Dr. S. B. Chordiya : Chairman of SGI organized with the help of the faculty the following seminar in association with Savitribai Phule Pune University in Nov. – Dec. 2014 at at Suryadatta College of Management Information Research & Technology, SCMIRT on on 15th November 2014.

The Seminar topic was “Big Data Computing for Manufacturing Industry”

The following speakers deliberated on that day

1. Dr. Deepak Shikarpur, Chairman, IT Committee MCCA
2. Mr. C E Potnis (Keynote Speaker), Founder and Managing Director Nitor Infotech Pvt. Ltd
3. Akash Mavle, CEO PrimeNumerics Consulting Inc.
4. Parag Kandarkar, Director - Business Excellence at PrimeNumerics Consulting Inc.
5. Mr. Vijay Prasad- Project Lead- Infosys Ltd.

In his welcome address, Dr Sanjay B. Chordiya encouraged all the participants for proactive participation and highlighted the importance of mastering the new technologies being invented in I.T. sector to remain competitive in the global economy. He further stressed that India has enjoyed so far position no. 1 as far as I.T. domain is concerned. To retain this position we have to roll up our sleeves, update ourselves, adopt innovative approach and develop new technologies. He said such seminars would help the above purpose.

Mr. C.E. Potnis was the key note speaker who dwelt in detail about Big data and its importance. He also spoke about improving the concentration skills of students and stressed on the importance of being focused in life about career. He asked the students to have belief in their capabilities to achieve their goals in life. He said we can scale any heights if we are determined.. Giving examples of his own life, he spoke that despite of his humble beginnings he has risen to this extent .By being positive in our outlook we can beat all odds in life and step towards success.

Dr. Deepak Shikarpur spoke on the Opportunities in Big Data Computing. He spoke about the use of technology in our daily lives.

Mr. Akash Mavle highlighted the issues in Big data computing in Manufacturing and also discussed probable solutions for these.

Mr.Parag Kandarkar also spoke on similar lines and also touched the grey areas in Big Data computing

Mr.Vijay Prasad discussed on the role of other managers in leading the team for computing Big Data.

Dr. P K Ghosh, Dr. Rohit Kichloo, Prof. Shantilal Hajeri, Prof. Pranjali Unkule, Prof. Varsha Murhe & Prof. Deepak Singh were the organizing committee members of all these seminars. All the seminars were attended by nearly 300 students, industrialists and working professionals.

While proposing the vote of thanks ,students expressed that such seminars are must for them because such exposures bridges the gap between the concepts and theories they learn in the four walls of the class rooms and the realities happening in the global economy and industries, particularly in India. This practical aspects empowers them with confidence of excelling in interviews, interaction with industrial stalwarts etc.
