जपाकुसुमसंकाशं काश्यपेयं महाद्युतिम्  
तमोऽरिं सर्वपापघ्नं प्रणातोऽस्मि दिवाकरम्

The worship of the Sun is as old as civilization.

I bow to you, O Surya, the Son of Kashyapa Muni, the destroyer of darkness and all sins, whose luster is like that of red Jaswand Flower. The worship of the Sun is as old as civilization.

The Sun that awakens man from darkness, the Sun that is so brilliant that it cannot be seen by the naked eye evokes awe in the human mind. In the Rig-Veda, Surya has been described as the life (atma) of all creation. Surya is praised as the God of Gods (Rig-Veda 1.50.10). Homage is paid to Surya by chanting special names while offering him salutation-Surya Namaskara. These twelve names that we use to worship Surya serve to remind us of his glory and power and to be eternally grateful for his constant blessings in our life here on earth.

Positioned at the convergence of education, research, industry collaboration, and entrepreneurship, SBIRD functions as a venture-building and commercialisation engine, rather than a conventional academic or incubation institution.

India's growth trajectory under Atmanirbhar Bharat, Make in India, Startup India, Skill India, and the Viksit Bharat vision demands scalable mechanisms that convert knowledge into production, ideas into enterprises, and innovation into economic output. SBIRD addresses this national imperative by building a structured pipeline from ideation and validation to incubation, commercialisation, and enterprise scaling, enabling faster and de-risked transition from concept to market.

SBIRD offers a capital-efficient and diversified exposure to early-stage innovation and MSME-scale enterprise creation across high-growth sectors such as technology, Industry 4.0, cyber intelligence, agro-processing, healthcare, design, and creative industries. The platform integrates industry mentorship, applied research, intellectual property creation, and market access, significantly improving startup survival rates and long-term value creation compared to standalone early-stage investments.

SBIRD's operating model emphasises asset-light scalability, partnership-driven expansion, and strong policy alignment, enabling replication across regions and sectors while maintaining quality and governance. Revenue and value creation are driven through a combination of equity participation, IP commercialisation, incubation services, industry-sponsored innovation projects, and institutional funding, creating multiple return pathways and downside protection.

Beyond financial returns, SBIRD delivers measurable ESG and impact outcomes, including employment generation, MSME modernisation, import substitution, and regional industrial development. As a result, SBIRD represents a compelling opportunity for strategic investors, impact funds, development finance institutions, and global innovation partners to participate in building India's industrial future—where capital, capability, and collaboration converge to create sustainable enterprise value
